

RAFAEL DELA PAZ

0991-989-3679 | VALENZUELA CITY | rafaeldelapaz.work@gmail.com | <https://rafaeldelapaz.vercel.app>

PROFESSIONAL SUMMARY

Information Technology graduate with hands-on experience developing full-stack web and cross-platform mobile applications through academic projects and technical internships. Experienced in building RESTful APIs, database-driven systems, GPS-based applications, and offline-capable attendance systems using JavaScript, React, React Native, Node.js, Express.js, and MongoDB. Seeking an entry-level software development or IT role where I can contribute to real-world projects while continuously strengthening my technical skills.

WORK EXPERIENCED

DSWD Cash for Work Program

Apprentice June 2026 – July 2026
Valenzuela City

- Performed administrative and office support tasks, including document management, records organization, office maintenance, and other daily operational responsibilities.
- Assisted in fieldwork, community events, and barangay activities by supporting planning, coordination, on-site operations, and client services.
- Participated in DOLE JobStart trainings and seminars while providing customer support and carrying out tasks assigned by supervisors.

Notre Dame of Greater Manila

School ID Printing Staff (Project Based) May 2026 – June 2026
Caloocan City

- Assisted 2000 students during the school ID process
- Captured ID photographs and processed student records using OrangeApps
- Verified student information, collected signatures, and ensured data accuracy

Notre Dame of Greater Manila

Technical Support Intern August 2025 – March 2026
Caloocan City

- Assisted in troubleshooting hardware, software, and network-related issues
- Installed and configured computer systems and peripherals
- Assisted the faculty and staff for operational concerns

EDUCATION

Bachelor of Science in Information Technology

Pamantasan ng Lungsod ng Valenzuela Graduated: August 2026
Maysan, Valenzuela City

Science, Technology, Engineering and Mathematics

Pamantasan ng Lungsod ng Valenzuela Senior High School Graduated: June 2022
Maysan, Valenzuela City

SKILLS

- Languages: Java, JavaScript, C#, PHP, Python
- Frontend: HTML, CSS, React.js
- Backend: Node.js, Express.js, RESTful API Development
- Mobile: React Native (Expo)
- Databases: MongoDB, MySQL, Firebase
- Version Control: Git, GitHub
- Development Tools: VS Code, Visual Studio, Android Studio, Postman, XAMPP
- Deployment: Vercel, Render
- Office/Design: Microsoft Office, Google Workspace, Photoshop, Canva
- IT: Troubleshooting, PC setup/configuration, Technical Documentation
- AI tools: ChatGPT, Claude, Cursor

ACHIEVEMENT AND CERTIFICATION

PLV ITLYMPICS 2026

- PLV ITLYMPIAN 2026 title holder, 1ST RUNNER-UP: PYTHON PROGRAMMING, 1ST RUNNER-UP: PC ASSEMBLY AND DISASSEMBLY

PLV ITLYMPICS 2024

- 2ND RUNNER-UP: C# PROGRAMMING

PROJECTS

TrafficSlight (2025) [CAPSTONE PROJECT]

GPS-Based Mobile Application for Navigation and Fuel Consumption Tracking for Motorcycle Riders.

Technologies: React Native (Expo), React.js, Node.js, Express.js, MongoDB Atlas, Google Maps Platform, Render

- Developed a cross-platform mobile application that provides GPS navigation, route recommendations, and fuel consumption tracking for motorcycle riders.
- Integrated Google Maps APIs for real-time location tracking, route visualization, destination search, and trip management.
- Designed and developed RESTful APIs using Node.js and Express.js with MongoDB Atlas to manage user accounts, trip history, motorcycles, and fuel records.

Campus Attendance Management System (2025)

RFID-Based Attendance System with Offline Synchronization and Role-Based Access Control

Technologies: Electron (Python), Express.js, MongoDB Atlas, REST APIs, HTML, CSS, JavaScript

- Developed a desktop attendance management system that automates RFID code-based attendance recording for students and faculty.
- Implemented offline data synchronization, intelligent local caching, and role-based access control to ensure uninterrupted attendance recording during network outages.
- Built backend RESTful APIs with Express.js and MongoDB Atlas for attendance processing, user management, and real-time data synchronization.

OTHER PROJECTS

Brewddy Coffee (2026) <https://brewddy-coffee.vercel.app>

Responsive coffee shop website built as a modern React-based web application.

Technologies: React, TypeScript, Vite, Tailwind CSS, Lovable

INSKEDLATOR (2025)

Full-Stack Web Application for Personnel Scheduling and Management

Technologies: PHP, MySQL, JavaScript, jQuery, Bootstrap, HTML, CSS

CCID (2025)

Unity-based survival game where players progress through three stages while overcoming flooding challenges.

Technologies: Unity, Canva, Aseprite

Life Update (2025)

Unity-based a gamified productivity mobile application designed to help users develop better habits and enhance their daily productivity.

Technologies: Unity, Canva, Aseprite

Citizen Registry (2024)

A web application for citizen identification and registration that manages citizen information, validates submitted data, and supports record monitoring.

Technologies: C#, .NET Framework, Microsoft SQL

TechTots (2023)

Educational mobile game designed to teach users about basic computer components through interactive gameplay.

Technologies: Ionic, Canva

Travel IT (2023)

Educational game designed to enhance players' knowledge of countries, landmarks, cultures, and locations through interactive gameplay.

Technologies: Java, NetBeans IDE
